

Start Strong Clark County is a maternal paternal infant health coalition comprised of local public health providers, social service providers, non-profit organizations and community members working together to save lives. Our mission is to help every baby, within our reach, live to celebrate his or her first birthday. We need healthy mommies to have healthy babies and we need healthy communities to have healthy mommies. It truly does take a village! It is a goal for this coalition to share information amongst each other and increase community awareness of the programs and services we have in place. We also use this information to identify and act on opportunities to improve the health of our community. We meet monthly, typically for one hour with a hybrid option. Start Strong is housed within Clark County Combined Health District. Please visit the Awareness tab located at the bottom of our home screen for recent meeting minutes and a copy of our strategic plan.
