Aaron Roy, Faith Community Crisis Response Team Dir.

Nehemiah Foundation:

In addition to being a parent organization over 30 grass-root level ministries committed to seeing the people in our community flourish, the Nehemiah Foundation also acts as a convener. For over 30 years it has been Nehemiah's mission to unite the faith-community and civic organizations to come together to find solutions for the problems plaguing our city.

CarePortal: (note: Nehemiah is the Implementing Partner bringing CarePortal to Clark County)

CarePortal is an online platform that's connecting the largest network of caring people to meet the needs of kids and families in crisis. Children are at the center of every need, and every child belongs in a healthy, loving family. Unfortunately, many parents are struggling to secure the vital means and support they need to provide for their family's basic needs. CarePortal's connecting technology drives action for local children and families in crisis to receive the wrap around care they need from individuals, churches, and businesses who care.
