(937) 390-5600

The Clark County Combined Health District Tobacco Grant Program provides funding for tobacco prevention & cessation education for adults and youth. The grant also addresses policy change with working to implement a 100% smoke free policy for public spaces. Also, the program works to advocate for policy that prevents the sales of tobacco products to underage youth. Lastly, tobacco related disparities are a focus area. Needs are addressed through strategic planning that works to identify and close gaps to protect priority populations.

Clark County Partners in Prevention

Clark County Partners in Prevention is a Drug Free Community Grant Funded Coalition comprised of 60 plus members representing many sectors of the community. The coalition strives to bring awareness, educate, and change policy to help reduce substance use among youth in Clark County. McKinley Hall is the fiscal agent for Clark County Partners in Prevention located at McKinley Hall, 2624 Lexington Ave. Springfield, Ohio 45505.
